ABOUT

With over 3 years of experience as a Software Engineer, I specialize in building scalable, high-performance applications using modern technologies, including Laravel, Node.js, React, Next.js, TypeScript, and python . I have a strong track record in developing clean, modular code and have delivered key projects like an eCommerce platform, real estate and restaurant management systems, and shareholder management solutions. My backend expertise includes API integration and proficiency with PostgreSQL, MongoDB, and MySQL, as well as deployment on AWS and DigitalOcean. I am skilled in CI/CD practices and containerized environments like Docker, enhancing efficiency and scalability

WORK EXPERIENCE

TBC TECHNOLOGIES

JAN 2024 - PRESENT

Full-Stack Software Engineer and Tech Lead

- Led end-to-end development of web applications, overseeing both front-end and back-end architecture.
- Guided cross-functional teams, defined technical roadmaps, and ensured high code quality through best practices.
- Collaborated with stakeholders to align technology with business goals and delivered scalable, maintainable solutions.

KEGEBEREW TECHNOLOGIES SOLUTIONS

Feb 2023 - Dec 2023

Full-Stack Software Engineer

- Built and maintained scalable web apps like KBdr and a Shareholder Management System using MERN stack, Next.js, and Tailwind.
- Optimized performance with Redux and Zustand, ensured clean, modular code, and integrated CI/CD for fast, reliable deployments.
- Collaborated with teams via ClickUp and Slack to streamline development workflows.

HIKEL TECHNOLOGIES INSTITUTE

Jan 2022 - Feb 2023

Full-Stack Developer

- Developed scalable web apps using Laravel, Bootstrap, and Tailwind CSS. Contributed to projects like an E-commerce platform and Effectorum, delivering clean code and smooth user experiences.
- Collaborated with teams to meet deadlines and solve development challenges.

EDUCATION

Bachelor of Software Engineering

OCT 2017 - NOV 2022

Kombolcha Institute of Technology (KIOT)

GPA: 3.74 / 4.0
